

Bernstein Activation

Activation Regimes (z-space)

Affine Constraints

Conjunction of neuron constraints:

$$z_1^{lo} \leq \mathbf{w}_1^T \mathbf{x} + \beta_1 \leq z_1^{hi}$$

Neuron 1 interval

&&

$$z_2^{lo} \leq \mathbf{w}_2^T \mathbf{x} + \beta_2 \leq z_2^{hi}$$

Neuron 2 interval

Rule Region (x-space)
